to diesel fuel, it's control, and emissions.

Diesel engine manuals and specs at Barrington Diesel Club

API ARB

ASTM

CARB

CEN

CENELEC

eso

EPA

ETSI

JIS

WHO

API - American Petroleum Industry

API - American Petroleum Industry

API - American Petroleum Industry

The API influences public policy in support of a viable U.S. oil and natural gas industry. They negotiate and lobby with government and regulatory agencies. They do research into economic, toxicological, and environmental aspects of the petroleum industry.

ARB - Air Resources Board

ARB - In California, the Air Resources Board or CARB - California Air Resources Board

Air Resources Board

The ARB is responsible for clean air standards in California, and sets norms and standards worldwide. It does standards and testing of many aspects of clean air including for the diesel engine industry.

ASTM - American Society for Testing and Materials

ASTM - American Society for Testing and Materials

The ASTM is a society that sets American and International standards for manufacturing and for products produced. They do this generally guided by a consensus of member opinions and submissions. Any product is fair game to have standards applied, toys, water, fuel, machinery, medicine and so on and on.

ASTM -
American
Society for
Testing and
Materials

CARB - California Air Resources Board

CARB - California Air
Resources Board or
ARB - The Air Resources
Board

Air Resources
Board

The CARB is responsible for clean air standards in California, and sets norms and standards worldwide. It does standards and testing of many aspects of clean air including for the diesel engine industry.

CEN - European Committee for Standardization

CEN - Comit  Europ en
de Normalisation
European Committee for
Standardization

European
Committee for
Standardization

The CEN is a public standards organization who aims to foster the economy of the European Union (EU) in global trading, the welfare of European citizens and its environment.

European Committiee for Electrotechnical Standardization

CENELEC - European
Committee for
Electrotechnical
Standardization

European
Committee for
Electrotechnical
Standardization

CENELEC is the central organization coordinating standards among its members, one member per country in the EU. Its sister organizations are the [CEN](#) and [ETSI](#)

EPA - Environmental Protection Agency

EPA - Environmental
Protection Agency

The Environmental Protection Agency is a US Federal Government Agency that, inter alia, has set and enforces diesel engine emissions standards.

Environmental
Protection
Agency

European Standards Organizations

eso - European
Standards Organizations

- [CENELEC](#) CENELEC, CEN and ETSI are the only three European Standards Organizations whose standards are recognized by the European Union (EU).
- [CEN](#)
- [ETSI](#)

European
Standards
Organizations

ETSI - European Telecommunications Standards Institute

ETSI - European
Telecommunications
Standards Institute

European
Telecommunications
Standards
Institute

ETSI, the European Telecommunications Standards Institute that produces globally applicable standards for Information and Communications Technologies. Its sister organizations are the [CEN](#) and [CENELEC](#)

JIS - Japanese Industrial Standards

JIS - Japanese Industrial
Standards

Japanese
Industrial
Standards

The JIS, Japanese Industrial Standards is a government agency that, inter alia, has set and enforces diesel engine emissions standards in Japan.

WHO - World health Organization

WHO - World health Organization

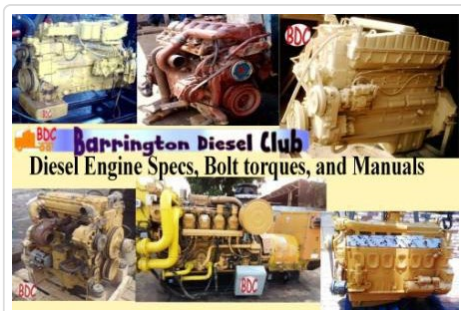

World health Organization

The World health Organization is a member of the UN (United Nations), it's goal is to build a better, healthier future for people worldwide. They have made studies linking diesel emissions to lung cancer in confined places.
